Trustees' Report

Group Structure (continued)

The group consists of the following entities:

- · The John Muir Trust (the Parent Company) and
- JMT Trading Company Limited its wholly owned trading subsidiary. To protect the charitable status
 of the Parent Company, this trading subsidiary was established on 1 February 1995 to carry on the
 agriculture and forestry activities on the Strathaird Estate and also the merchandising activities of the
 Company. The farming operations were transferred into the Strathaird Farming Partnership during
 2001 and the woodland activities were transferred to the Trust in July 2010. Note 11 explains the
 performance of the trading subsidiary during the year.

The results of the trading subsidiary have been consolidated with the Company results in line with the Companies Act 2006 and the Statement of Recommended Practice (SORP) "Accounting and Reporting by Charities" (Revised 2005).

Objectives and Activities

The objects of the Company are set out in the Memorandum of Association and are to conserve and protect wild places with their indigenous animals, plants and soils for the benefit of present and future generations, and in particular:

- to conserve wild places and their landscapes, both for their own sake and for the sustenance and the
 inspiration they give to humanity;
- to protect existing wild places so as to conserve their natural processes, and their indigenous animals, plants and soils;
- · to renew wild places, where they have been damaged, by encouraging natural processes;
- to work with local communities and to encourage them to live in harmony with wild places;
- to promote an awareness and understanding of wild places for their own sake and for the value to the benefit of humanity;
- · to stimulate public support to help wild places; and
- to encourage voluntary participation in the conservation and renewal of wild places.

The Company does sometimes make grants to other bodies or individuals for purposes in support of the Company's objectives.

The activities of the Company towards those objectives during 2014, together with details of the Company's achievements and performance during 2014 and its future plans, are detailed in the Trustees' Annual Report which accompanies these financial statements.

Financial Results

The group financial statements show net outgoing resources of £222,435 (2013: £115,277 net incoming resources) stated prior to other gains set out below.

Major constituents of income in 2014 were £145,000 from the Wild Ways (paths) appeal and £274,000 from appeals for our policy work re Stronelairg and Talladh-a-Bheithe. Legacy income reduced in 2014 to £693,000 from £903,000 in 2013.

Income and the Trust's reserves have been used to fund our core charitable activities, including land management activities across our properties and policy activity in the areas of the SNH Wild Land Map, hill tracks and responses to large scale inappropriately sited developments. Expansion of the Award continues in England and further funding has been received in Scotland to strengthen our work with young people and families around nature, health and wellbeing.

Trustees' Report

Financial Results (continued)

The Wild Space, our visitor centre and retail space in Pitlochry, was open for a full year in 2014. Visitor numbers exceeded 30,000 with an average spend per transaction of £7.73. The retail element of the Trading Company (the Wild Space plus sales of merchandise via our website) made a gross profit of £31,000 on turnover of £86,000 in 2014. The Wild Space also generated donations of £2,900 for the Trust.

Taking account of realised gains and losses on fixed assets disposals (2014: loss £17,573, 2013: gain £2,667), realised gains on investments (2014: £nii, 2013: £4,444) and unrealised gains on investments (2014: £34,452, 2013: £49,641), funds decreased by £205,556 (2013: increased by £172,029).

This deficit of £205,556, together with balances brought forward from 2013 of £4,312,171, gives a balance of £4,106,615. Adding the cost of Heritage Properties (£2,573,442) gives total fund balances carried forward at 31 December 2014 of £6,680,057 (2013: £6,885,613), of which £1,184,094 is free reserves (2013: £1,043,245).

Investment Policy

In terms of investments, the Trustees' overall objective is to hold investments to generate income and provide long-term capital growth. The Investment Managers are instructed to maximise the return on the Company's investments, consistent with an acceptable level of risk whilst maintaining the real value of the portfolio over time. The investment powers of the Company are general ones conferred by the Company's Memorandum of Association, having regard to such social and ethical issues as the Trustees consider may be appropriate. Over the year the capital value of the Company's investment portfolio has risen 5.6% (2013: 8.6%). Income generated during the period has been reinvested.

Risk

A Risk Register has been in place since 2006. Whilst identifying and measuring risk is an essential part of the risk management process, the desired outcome of the process is the mitigation of risk which can only be achieved with a clear review process which puts in place control or mitigation measures. The risk management process implemented by the Company includes the implementation of a Risk Management Policy and maintenance of a Risk Register.

An assessment of all risks is undertaken on an annual basis. Risks are analysed, quantified and prioritised and actions and responsibilities identified to minimise or mitigate these risks. This results in the production of the annual risk register. Trustees and staff are informed of these risks and the actions identified to minimise or mitigate them.

Routine monitoring and evaluation of all risks is undertaken on a quarterly basis by the Management Team, and annually by Trustees. Any risks that are deemed to be outside a pre-defined level of acceptable risk are subject to a quarterly review by Trustees. If, at any time through continuous financial monitoring and forecasting, staff become aware that the risks are likely to exceed the parameters set out in the Company's Financial Reserves Policy, Trustees are alerted immediately.

Trustees last approved the revised risk management policy, process and register in March 2014.

Heritage Properties

The Company's wild land properties are shown in the financial statements (entitled Heritage Properties) as Fixed Assets, in accordance with the Statement of Recommended Practice (SORP) "Accounting and Reporting by Charities" (Revised 2005). This does not indicate any change in the objectives or policies of the Company. As the Heritage Properties were acquired by the Company for long term retention in furtherance of its objectives, the Trustees do not consider it either appropriate or cost effective to have the Heritage Properties re-valued and therefore they are shown in these financial statements at cost.

Reserves

The Trustees have a detailed reserves policy and the Company is working to a five year business plan, with budgets prepared on a three-year rolling basis.

A charity's reserves are made up of unrestricted and restricted funds. Restricted funds are those received with

Trustees' Report

conditions imposed by the donor as to their use (for example a donation to a specific appeal or place). Unrestricted funds are those received with no conditions attached. Trustees may earmark part of the Trust's unrestricted funds to be used for particular purposes in the future. These are called designated funds and accounted for separately within unrestricted funds. The trustees have the power to re-designate such funds within unrestricted funds. Free reserves are those funds within unrestricted funds which have not been designated.

The purpose of free reserves is to absorb peaks and troughs in income and expenditure over the course of a year. The Trust's policy is that free reserves should be held at a level equivalent of 4-6 months' total budgeted expenditure for the coming year.

Heritage Properties (land holdings) and fixed assets (including buildings, motor vehicles and equipment) are designated and are therefore not taken into account into the calculation of free reserves.

Free reserves	2014	2013
Total budgeted expenditure for the coming year	£2,358,000	£2,594,000
FREE RESERVES POLICY Lower limit (4 months) Upper limit (6 months)	£786,000 £1,179,000	£865,000 £1,297,000
ACTUAL FREE RESERVES HELD at 31 December Number of months' budgeted expenditure for the coming year:	£1,184,000 6.0 months	£1,043,000 4.8 months

The Trustees consider that the present reserves policy is prudent taking account of the Company's objects and 2015 budget. They are satisfied that the free reserves held as at the year-end are sufficient to meet the on-going requirements of the Company.

The reserves policy enables the Company to apply excess free reserves to our charitable objectives on a timely basis. Where possible we use our reserves to match fund areas of work.

There are three funds which have an objective of property purchase, namely The Copley Fund (designated), the Land Fund (restricted) and the balance remaining on the Wales fund (restricted). As at 31 December 2014, the total value of those funds was £828,000.

The Company has designated funds (excluding heritage properties and fixed assets) of £1.6m, details of which are set out in note 21 to the accounts. The major constituents of those designated funds are £667,000 in the Copley Fund (mentioned above) and £215,000 in the strategic projects fund. The Copley Fund will be used to fund land purchases or other major land projects. Up to 5% of the fund's capital may be used for land management work. The strategic projects fund comprises money earmarked for a number of projects defined in the Company's Corporate Strategy that have been and are being undertaken between 2011 and 2017, including a new website and the implementation of a powerful member and contacts database.

Future plans

During 2014, the Trust produced its next five year strategic plan which is available on our website. We will continue to urge better protection of wild land, respond to specific development threats, campaign for appropriate legislative change, continue to work to restore ecosystems and natural systems to degraded wild land, bring increasing numbers of people together with wild places through the John Muir Award and highlight the value of wild places and key environmental issues through our visitor centre, online engagement and our work with volunteers, partners and communities.

Our strategic objectives are:

- to protect the wildest places across the United Kingdom
- to enhance wild places for people and nature
- to encourage people to value and care for wild places
- to be an efficient, effective, creative and sustainable organisation

Registered company number SC081620

The notes on pages 11 to 25 form part of these financial statements.

Notes to the Financial Statements

1 ACCOUNTING POLICIES

a) The financial statements are prepared under the historical cost convention, and in accordance with applicable accounting standards in the United Kingdom, except for investments which have been included on a revalued basis and Tower House, Pitlochry which is included at cost but depreciated on the revalued amount following an impairment charge in 2012.

The financial statements, which incorporate a Statement of Financial Activities, have been prepared in accordance with the Statement of Recommended Practice (SORP) "Accounting and Reporting by Charities" (Revised 2005) and the Companies Act 2006, the Charities and Trustee Investment (Scotland) Act 2005 and Regulation 8 of the Charities Accounts (Scotland) Regulations 2006.

The financial statements are prepared on a consolidated basis to include the Company's wholly owned subsidiary JMT Trading Company Limited (Company Number SC153018) which together with the Company comprise the Group.

b) Going concern

The directors are of the opinion that the charitable company and group can continue to meet its obligations as they fall due for the foreseeable future. As a consequence the Trustees have prepared the financial statements on the going concern basis.

c) Subscriptions

Annual and Life subscriptions from members are credited in full as income in the period in which they are received.

d) Gift-Aid and other tax repayments

Gift Aid receipts and other tax repayments are the amounts receivable in respect of donations and legacies received in the period, and are allocated to the income category to which the corresponding underlying payments relate.

e) Funds

Restricted funds are those which have been given to the Company for use in accordance with the wishes of the donors, commonly for use in relation to a particular Heritage property, a group of such properties or for other specific projects.

Unrestricted funds are available for use at the discretion of the Trustees. In order to ensure that funds are available for specific projects, certain funds are set aside and designated by the Trustees into separate funds.

f) Fixed Assets

Fixed assets are stated at the lower of cost and net realisable value.

Depreciation is provided on all tangible fixed assets at a rate calculated to write off the cost or valuation on a straight line basis, less estimated residual value of each asset over its expected useful life as follows:

Tower House development (buildings)	50 years
Other buildings	10 years
Wild Space exhibition materials	5 years
Office, computer and field equipment	4 years
Motor vehicles & plant	4 years

No depreciation is charged on the Heritage Properties which comprise freehold land considered by the Trustees to have an indefinitely long useful life. These are regarded as heritage assets for the purposes of the charity SORP requirements.

g) Pensions

Contributions are charged to the Statement of Financial Activities (incorporating the Income & Expenditure Account) as they become payable and are all on a defined contribution basis and paid to a pension fund of each employee's choice.

3 COSTS OF GENERATING VOLUNTARY INCOME

Donations and legacies are also received from individuals who are not members of the Company.

The costs of recruiting and retaining members includes secretarial services, annual Members' Gathering, providing support to local members' groups, recruitment initiatives and liaising with corporate members and supporters.

Costs of raising other voluntary income are predominantly staff costs associated with raising funds from Charitable Trusts, administering legacies and grants and managing relationships with major donors.

8 FIXED ASSETS – Heritage properties

In accordance with the furtherance of its objectives the Company has acquired land as detailed below which it regards as heritage assets, and is the owner of the land without encumbrance.

The heritage properties are shown in the financial statements as Fixed Assets in accordance with the Statement of Recommended Practice (SORP) "Accounting and Reporting by Charities" (Revised 2005). As the heritage properties were acquired by the Company for long term retention in furtherance of its objectives, and they qualify as heritage assets, the Trustees do not consider it either appropriate or cost effective to have the properties re-valued and therefore they are shown in these financial statements at cost. They also consider that conventional valuation approaches lack sufficient reliability in relation to the nature of the properties.

Notes to the Financial Statements (continued)

The Company's role in the conservation of wild land is to safeguard whole landscapes within it, areas sufficiently large – whole hill ranges or watersheds – that they retain or can be restored to their natural processes and biodiversity, and can provide the spiritual qualities for which humans value wild land: freedom, tranquillity and solitude. The Company's principles for acquiring property place particular emphasis on:

- the acquisition of key holdings within a landscape that will safeguard its finest features and that offers opportunities to influence its overall management; and
- the acquisition, or opportunities for co-operative management, that bring nearer the goal of unified management of a landscape.

Each property acquisition decision will involve assessment and consideration of a number of criteria, including but not limited to the property's condition, location, size, costs of both acquisition and ongoing management and threats.

As the principal aim of the Trust is to safeguard wild land for its long-term conservation, land will usually only be disposed of when there is a legal requirement to do so, if the land is not or no longer of conservation interest or when a more appropriate management structure presents itself. For all land disposals the Trust will endeavour to impose relevant conservation burdens.

The Company manages each property in line with its Property Management Plan and the Company's internal "Wild Land Management Standards". The extent and type of work undertaken on each property will vary from year to year according to availability of resources and priorities as set out in the Company's Strategic Plan.

Company properties have always been and will continue to be open to all. Visitors are welcome and they are trusted to respect the wishes of the people who live and work on the properties. The Land Reform (Scotland) Act 2003 sets down in statute a presumption in favour of non-motorised responsible access over most areas of land and inland water for passage, recreation, education and commercial activities. Guidance on responsible access is given in the Scottish Outdoor Access Code which was published in February 2005 when Part 1 of the Act came into effect.
